

Web Fundamentals Lab

This document defines Lab assignment from the [“Web Fundamentals \(HTML & CSS\)” Course @ SoftUni](#). Please submit as homework a single **zip / 7z** archive holding the source code of all below described problems.

Problem 4. Footer

In the **HTML** document **footer** tag create the footer based on the screenshot below:

- Insert **paragraph** tag with the text below and use the **Copyright** symbol;
- Insert **div** tag for the social networks links
- Create separate **div** tag for each social media link

In the **CSS** file adjust the icons for the social networks:

- use the sprite **“sprites-transparent.png”** to cut and position each icon;
- use the same sprite with different position for the hover effect;
