

Web Fundamentals Lab

This document defines Lab assignment from the [“Web Fundamentals \(HTML & CSS\)” Course @ SoftUni](#). Please submit as homework a single **zip / 7z** archive holding the source code of all below described problems.

Problem 6. Images and Form

In the **HTML** document **main** tag 3 images and a form based on the screenshot below:

- Create **form** tag with 4 **fieldset**s;
- For each **fieldset** create **legend** and 2 **input** tags. Use the correct **input types** for each tag;
- Use form **validation** and make all inputs **required**, except **Team Size**;
- Make **Send** input do nothing on click;
- Insert 3 **images** below the table;

In the **CSS** file use styling to make the table look like the screenshot below:

- Use width of **400px** for the form;
- Make the cursor turn into hand on the **Send** and **Reset form** inputs
- Use different backgrounds for the **Send** and **Reset form** inputs. Use colors **green** and **red**;
